Homeowner's St. Augustine Advantage

This program focuses on setting the baseline for having a desirable St. Augustine lawn, without all the headaches. By using Caravan G, you get two products in one to protect you from chinch bugs and grey leaf spot. And with a simple rotation of fertilizers, you'll be back to green in no time.

Caravan G 2-3 Pounds per 1,000 Sq. Ft. Every 3 Months

Caravan G is a combo insecticide / fungicide designed to give systemic control of chinch bugs, webworms, brown patch, grey leaf spot, and more.

Sunniland 16-4-8 5 Pounds per 1,000 Sq. Ft. Every 6-8 Weeks

16-4-8 is a well-balanced NPK fertilizer that is readily available and designed to help give you a good green-up quickly.

Milorganite 15 Pounds per 1,000 Sq. Ft. every 6-8 weeks

Milorganite is a fantastic slow-release, organic fertilizer designed to slowly feed the lawn over time. Rotate this with 16-4-8, and you will be lush and green in no time.
