## Home Garden “Grow Easy” Program

Starting your own home garden can be incredibly rewarding, but it also comes with a multitude of challenges along the way. Fungus, insects, watering, and fertility are all aspects you have to dial in to get a great harvest. Luckily we lay it all out for you here. Follow these steps, and you will have a garden the neighbors envy.

### Miller’s Nutrient Express 18-18-18

**Drench 1 TBSP per 5 GL bucket  
weekly or every 4 days**

Miller’s nutrient express 18-18-18 is a fantastic water soluble fertilizer that provides the plant with all the nutrients it needs, along with amino acids and sea kelp. You will see drastic differences after using this.

### No Fly Bioinsecticide

**Foliar spray @ ½ OZ per GL every 5-7 days**

This excellent, organic mycoinsecticide will protect you from insects that want to destroy your crops; thrips, mealybugs, white flies, and more. And best of all, it is OMRI listed!

### Liquid Ornamental & Vegetable Fungicide

**Foliar @ 1 OZ per GL**

Containing Daconil, this fungicide will cover most of your fungal issues such as powdery mildew, rust, blight, and much more.
