Strawberry Delight

Strawberries are a delicious fruit, and we can grow them effectively right here in Florida. With that being said, strawberries are delicate and require a fair amount of care, attention, and inputs. This program will get you on the right track to grow beautiful, delicious strawberries.

Miller's Cell Force 3-0-0

This Calcium based fertilizer will reduce abiotic stress, and allow the plant to utilize Calcium more effectively to create healthier crops. Cell Force will also mobilize Calcium during flowering and fruit development.

No Fly Bioinsecticide

This excellent, organic mycoinsecticide will protect you from insects that want to destroy your crops; thrips, mealybugs, white flies, and more. And best of all, it is OMRI listed!

Miller's Sugar Express 4-10-40

Designed to be used close to harvest, Sugar Express provides the appropriate ratio of P and K. This excellent blend gives the plant amino acids, carbohydrates, and will aid in fruit firmness.

Cueva Liquid Copper Fungicide

Cueva is a flowable liquid copper fungicide derived from Copper Octanoate. This product allows for excellent control of diseases such as leaf/fruit spot, scab, mildew(s), and more with less residue and less Copper.

DiPel DF

Dipel DF is an organic, dry flowable strain that works effectively on worms and leaf feeding insects such as armyworm, bagworm, cutworm, and many more.
