### Guaranteed Analysis:

N sol. in water:	1.2%
P2O5 sol. in water:	1.0%
K2O sol. in water:	15.0%

Net Weight: 25 lbs

**Derived from:** Phosphoric Acid, Citric Acid, Potassium Chloride, Urea and Potassium Hydroxide

KMEP Ultra is a liquid foliar fertilizer based on Potassium, Phosphorus and Nitrogen that has an important function in plants that need to increase the translocation of sugars through the supply of nutrients through the leaf. Potassium deficiency in plants causes older leaves to fall prematurely. A balanced potassium fertilizer provides better vigor in plants and fruits and greater productivity.

#### Advantages of using KMEP Ultra:

- Gives the plant greater resistance to adverse climate situations (heat, drought, cold and frost);
- Corrects nutritional potassium deficiencies;
- Activates enzymes and improves plant metabolism;
- Promotes greater filling of fruits and grains;
- Improves production quality.

**Directions for Use:** 16 Oz per acre in every insecticide application.

#### Care:

- Unsuitable for animal/human food;
- Keep out of the reach of children.

**Date of manufacture/batch:** Printed on the packaging.  
**Shelf life:** 2 years when stored in a cool, dry place, with the packaging closed and out of sunlight.
